SERVICE TRAINING SCHEDULE 2018-2019

For Customers & Dealers

Maximise the performance of your centrifugal pump

learn from the experts

KIRLOSKAR BROTHERS LIMITED

A Kirloskar Group Company

Established 1888

OBJECTIVES

To create awareness amongst end users about fundamental and working principle of centrifugal pumps, so that they can operate and maintain the equipment very efficiently.

To develop and enhance technical skills of service staff and delivery partners to handle problems arising at the field.

The syllabus of the program has been designed by KBL so as to offer best theoretical as well as hands on knowledge to our valued customers and delivery partners. The training imparted is backed by KBL's century old expertise and experience and thorough understanding customers' requirements. Enriched by objective feedback from delegates who have benefited by attending this training program previously.

It is our endeavor to provide our customers excellent product knowledge as part of our after sales department. We are continuously designing our training module to improve our training pattern based on feedback and participants we receive from site.

This helps us tweak our syllabus for better fit.

REGISTRATION

The programme is exclusively designed for KBL Dealers & customers, with this training schedule, is a registration form which needs to be filled up with relevant details and to be sent to our training center or nearest branch office along with DD as prescribed below. On completion of registration process a confirmation mail is sent to the participating companies through email. The participants can approach directly to our training department through email or phone for further informations.

FEES

The program fee = Rs. 12000/- Taxes applicable as per govt norms (Inclusive of lodging boarding)
The payment can be made through DD/RTGS/NEFT
DD can be drawn in favour of Kirloskar Brothers Limited, payable at Sangli or Pune
