Kirloskar Brothers bags CII National Award for Excellence in Energy *For Kirloskarvadi plant and Lowest Life Cycle Cost (LLC) pumps*

Hyderabad August 23, 2013: Kirloskar Brothers Limited (KBL), a leading global fluid management company has won the Innovative Energy Saving Product Award for Lowest Life Cycle Cost (LLC) pumps and Excellent Energy Efficient Unit Award for Kirloskarvadi plant at the 14th National Award for Excellence in Energy Management 2013 by The Confederation of Indian Industry (CII).

Dr. Naushad Forbes, Chairman Energy Efficiency Summit 2013, Dr. Ajay Mathur, Director General Bureau of Energy Efficiency and Mr. L. S. Ganapati, Chairman – CII National Energy Award for excellence in Energy Management 2013 presented the award to KBL teams at a recent ceremony held in Hyderabad. KBL also showcased their innovative and sustainable pumping solutions at the 14th National Award Seminar 2013.

Speaking on the occasion, Mr. Sanjay Kirloskar, CMD, Kirloskar Brothers Limited, said, *“This milestone validates our commitment towards sustainability by providing energy efficient fluid handling solutions for the industry. We at Kirloskar Brothers Limited (KBL) take immense pride in introducing innovative products that cater to the changing economic needs of the industries.”*

Established in 1910, Kirloskarvadi plant was awarded the Excellent Energy Efficient Unit Award. The plant has all facilities under one roof and manufactures various types of pumps like Split Case, Multistage, End suction, Sewage handling, Solid handling, Vertical Turbine and Concrete Volute. These pumps are used for sectors like, irrigation, Coal, Steel, Building, Power, Petrochemicals, and Sugar industry. Pumps range from 1/10 kW to 12,000 kW.

Innovative Energy Saving Product Award was presented to the distinctive range of LLC™ pumps which sustains efficiency over longer period of time and has a low life cycle cost as compared to the conventional pumps. LLC™ pumps will save additional energy cost and effectively reduce the deterioration and costs. The cumulative reduction in energy consumption will directly aid cost saving and therefore increase the profitability of the organisation. The LLC™ pump users will derive the benefit of guaranteed performance in a sustainable manner over the life cycle of the pump.
