INTRODUCTION

Manufacturing Today magazine started off with the objective of helping the Indian manufacturer excel and grow by being a useful, credible and respected industry publication. While we continue our editorial journey, we are taking our engagement with the industry to the next level by creating a platform where the endeavours and the accomplishments of the industry are recognised, honoured and celebrated. So, Manufacturing Today is pleased to announce its inaugural awards with the theme of

“Celebrating Excellence in Indian Manufacturing”

MT Award for Excellence in Safety:

A company / plant will be judged against the following criteria:

1. Absence of serious incidents at a manufacturing facility. A record the same should be available.
2. Presence of all essential documents related to worker safety including the requisite certifications.
3. Employee training & education on safety
4. A system of risk assessment & management
5. Occupational health appraisal of workplace/s
6. Activities aimed to reduce the levels of health hazard factors
7. Employee services and support
8. Use and encouragement of personal protection equipment
9. Availability of basic medical assistance, easy access to emergency medical assistance & periodical medical exams
10. Proper and scientific disposal of waste and hazardous materials.
