BIODIVERSITY POLICY

We are dedicated towards environmental sustainability and acknowledge that biodiversity is essential for the processes that support life on Earth.

To uphold our value of "Commitment towards the Environment", we shall do our best to protect and enhance the biodiversity across our businesses, communities and value chain.

To implement this, we shall strive to -

1. Increase plantation within our boundaries and beyond to support the conservation of species, habitats and ecosystems
2. Preserve and improve existing flora and fauna within our boundaries
3. Avoid deforestation and habitat loss as a result of our businesses
4. Undertake efforts to preserve indigenous, endangered & rare species of flora and fauna to enhance biodiversity in the local habitat
5. Identify and evaluate biodiversity risk before initiating new business or expansion of our operations
6. Collaborate with communities, conservation experts & organisation dedicated towards biodiversity conservation initiatives
7. Comply with applicable legal & other regulatory requirements related to biodiversity
8. Actively engage with our employees, society and value chain partners to promote awareness about biodiversity conservation

WE AIM TO ENSURE NO NET LOSS OF BIODIVERSITY ACROSS OUR OPERATIONS !

Sanjay C. Kirloskar
Chairman & Managing Director
