Sustaining Industry and Community: KBL Powers Steel Plant in Gadchiroli

Kirloskar Brothers Limited (KBL) is proud to announce the successful installation and commissioning of three vertical turbine pumps for one of the steel plants in Gadchiroli district, Maharashtra.

The project aims to harness the district's rich iron ore resources. KBL's high-performance vertical turbine pumps ensure efficient fluid management, for the construction and future operations of the plant, enhancing productivity and sustainability.

Beyond industrial growth, the plant is expected to generate direct employment for over 1,100 local people and indirect opportunities for nearly 2,000 more, significantly boosting the local economy.

KBL's contribution to this project highlights our dedication to delivering robust fluid management solutions that drive responsible industrialisation. By partnering in transformative projects like these, we are helping pave the way for progress, prosperity and a brighter future for Gadchiroli.
