

Enriching Lives

KBL Powers Navi Mumbai International Airport with Advanced Firefighting and HVAC Solutions

Kirloskar Brothers Limited (KBL) is proud to contribute to the Navi Mumbai International Airport (NMIA), one of India's most ambitious greenfield infrastructure projects.

Spread across 1,160 hectares, NMIA is designed to handle up to 90 million passengers annually and serve as a major cargo hub with a capacity exceeding 2.5 million tonnes. KBL has equipped

the airport with advanced firefighting pumping systems for uncompromised safety and energy-efficient HVAC pumps which provide world-class comfort and reliability.

As NMIA takes flight, KBL continues to drive the nation's progress through its innovative, reliable and sustainable fluid management solutions.
